## Check-In

53 Studio Today

Check-In average

Monday

Ø 24 Check-Ins

This image shows two screenshots of a software application interface, likely a fitness studio management system, demonstrating different configurations of dashboard widgets.

The top screenshot displays a dashboard with the following components:

- Appointments:** Shows scheduled appointments for "Trainer general" across three days: Monday, Wednesday, and Thursday. Each appointment includes details like time, location, and duration.
- My Tasks:** A list of tasks with a priority filter. One task, "Contract signing with Max Kollen," is marked as due by 24/03/2024.
- Birthdays:** A list of upcoming birthdays for three individuals: Susie Mayer (20.03.1999), Timo Bergmann (20.03.1960), and Tatjana Bleich (21.03.1956).
- Check-In:** A chart showing check-in activity for the day, with a total of 24 check-ins. The x-axis represents time from 5AM to 1AM, and the y-axis represents the count of check-ins.

The bottom screenshot shows a similar dashboard configuration but with some differences:

- Appointments:** The "My Appointments" section is present but lacks the "Edit" button seen in the top version.
- Check-In:** The check-in chart is missing from this specific view.

Both screenshots include a header with navigation icons (Favorites, Customer, Training, Calendar, Check-In, Tasks, Finance, More) and a location dropdown set to "Hamburg Stellingen". A blue "Add Widget" button is visible in the top right corner of the bottom screenshot's dashboard area.

The screenshot displays a software interface for managing fitness studio operations. The top navigation bar includes links for Favorites, Customer, Training, Calendar, Check-In, Tasks, Finance, More, and a location dropdown set to Hamburg Stellingen. A notification bell icon shows 2 pending notifications.

A message at the top indicates changes have been made to the dashboard, with options to Restore or Save changes.

The main content area is titled "Dashboard" and features a "Trainer general" view. It contains three primary widgets:

- Appointments:** Shows scheduled events for Monday, March 20, including "Yoga" at 08:00 and "Functional training. Back & Core" at 14:00. It also lists events for Wednesday, March 22, and Thursday, March 23.
- My Tasks:** Displays 6 tasks, with 3 finished. One task, "Contract signing with Max Kollen," is marked as urgent (indicated by an exclamation mark) and due by 24/03/2024. Other tasks include "Confirmation of appointment Anna Lorenz" and "Confirmation of appointment Tjark Fröse," both due by 20/03/2024.
- Check-In:** Shows 53 check-ins for the day. A bar chart illustrates the distribution of check-ins across different times, with a total of 24 check-ins highlighted.

The bottom section shows a summary of total revenue and a search bar for "All Widgets".

The screenshot shows a fitness studio's dashboard. On the left, a sidebar lists appointments for various coaches and rooms. The main area displays a 'Contracts' section with a bar chart showing a 3.4% increase. A tooltip suggests adding widgets. The top right shows a 'Customer check-in' section for Monday.

This screenshot shows the same dashboard as above, but with a modal window open over it. The modal is titled 'All Widgets' and contains sections for 'Analytics' (Total revenue: 14.145,11 €, up 3% from sales) and 'Contract' (3.4% increase). It also includes a search bar and an 'Add Widget' button. The background dashboard elements are partially visible through the modal.
